

2018 International Conference on Information Communication and Signal Processing (ICSP 2018) will be held in Singapore on September 28-30, 2018. It focuses on all technical and practical aspects of information communication and signal processing. The goal of this conference is to bring together researchers and practitioners from academia and industry to focus on information communication and signal processing, and establishing new collaborations in these areas.

Publication

Accepted and presented papers will be published in the conference proceedings, and submitted for **Ei Compendex and Scopus** Index.

CONFERENCE COMMITTEES

Conference General Chairs

Prof. Maode Ma, Nanyang Technological University, Singapore

Conferece Co-chair

Prof. Xudong Jiang, Nanyang Technological University, Singapore

International Conferece Technical Committees

Prof. Chawalit Benjangkprasert, King Mongkut's Institute of Technology Ladkrabang, Thailand

Assoc. Prof. Juan Avalo, Instituto Politécnico Nacional, Mexico

Dr. Wan Nural Jawahir Hj Wan Yussof, Universiti Malaysia Terengganu, Malaysia

SUBMISSION METHOD

Full Paper (publication and oral presentation)

Abstract (oral presentation only)

Electronic Submission System (pdf)

<http://www.easychair.org/conferences/?conf=icsp2018>

IMPORTANT DATES

Submission Deadline: May 15, 2018

Notification Deadline: June 5, 2018

Registration Deadline: June 20, 2018

CONTACT US

Ms. Rachel Cao

Email: icspconference@163.com

Tel: +86-13880104217

CALL FOR PAPERS

Biomedical Engineering

Embedded Reconfigurable, Evolvable Systems

Information Theory & Coding

Streamed multimedia applications

Image and video processing

Management of multimedia services

Multimedia games

Traffic modeling

Embedded Internet devices

Resource and information management

End-to-end QoS

Channel measurements and modeling

MIMO - theory and trials

OFDM technology

Diversity techniques

Antennas and propagation

Grid Computing

Mobile Databases

Networking Protocols, Routing, Algorithms

Optical Networks

Reliability and Fault-Tolerance

Programmable networks

Information Theory & Coding

Cross Layer Design

Programmable networks security
